

Environmental Trust Site Visit
- Hsin Chu Nature Valley

新竹 自然谷

Due to Trust, we Entrust

Taiwan's first environmental Trust example

The Natural Valley Environmental Education Base

一日參訪行程

環境信託參訪- 新竹 自然谷

「因為信任，所以託付」

-台灣首例環境信託案例，自然谷環境教育基地

「環境保護公益信託自然谷環境教育基地」，為臺灣第一個環境信託成功案例，奠定我國環境信託的種子。環境信託是指將「環境」交付到「可信任的受託人」，妥善管理和永續經營，讓環境永續被多數人共享。

自然谷意圖保護原始的生態自然，透過土地信託方式，為全體後代子子孫孫保存一片淨土。自然谷的三名地主吳杰峯、吳語喬、劉秀美都是荒野保護協會會員。三十八歲的吳杰峯原是竹科工程師，四年前和友人花六百多萬元買下土地，盼進行棲地保護和生態保育宣導，「把自然谷信託給荒野是保障土地不會隨意被賣出開發。」

接受委託的荒野保護協會將自然谷作為環境教育基地，未來規劃讓孩子能到這裡看飛鼠、穿山甲，享有親近自然的喜悅，也期待未來能有更多私人 and 政府土地能信託給環保團體。

11月22日(二)

- 8:00-9:30 台北出發，前往新竹
<集合地點：公務人力展中心>
- 9:30-12:30 「因為信任，所以託付」
-台灣首例環境信託案例，自然谷環境教育基地
~ 午餐：客家風味餐 ~
- 12:30-15:00 竹東二重埔「農地徵議題」
<地點：竹東二重埔>

<地點：新竹縣竹東軟橋社區>
~ 活動：單車社區步道巡禮 ~
~ 客家茶點DIY&品嚐會 ~
- 18:00-18:40 返回台北

主辦單位：荒野保護協會

承辦單位：荒野保護協會新竹分會、清華大學頭前溪社、軟橋社區發展協會

One day tour

Environmental Trust Site Visit

- Hsin Chu Nature Valley

“Due to Trust, we Entrust”

-Taiwan’s first environmental trust example

-The Nature Valley Environmental Education Base

“Environmental Protection Public Trust-The Nature Valley Environmental Education Base” is the first successful example of environmental trust in Taiwan. This case will establish the foundation of Taiwan’s environmental trust movement. Environmental Trust entrusts the “environment” to “credible trustee” for carefully management and sustainable operation so the environmental resources could be shared by the majorities.

The Nature Valley leverages land trust to protect the original ecological landscape so the pure land could be retained for the future generations to come. 3 land owners of The Nature Valley-Wu Jei Feng, Wu Wui Chao, Liu Hsui Mei are all members of the Society of Wilderness. The 38 years-old Wu Jei Feng was an engineer at Hsin Chu Scientific Park, investing more than 6 millions Taiwan dollars to purchase the land 4 years ago with his friends. His intention is to utilize the base for habitat protection and environmental education.

“Entrusting The Nature Valley to the Society of Wilderness protects the land to be sold and developed at one’s interests” Wu added.

The trustee - the Society of Wilderness will use the Nature Valley as the environmental education base. In the future, children can enjoy the nature and closely observe flying squirrels and pangolins. Hoping more lands in the future can entrust to more environmental protection groups.

Nov. 22nd (Tuesday)

8:00-9:30 Departure from Taipei, heading to Hsin Chu
<Civil Service Development Institute in Taipei City >

9:30-12:30 Visit Taiwan’s first environmental trust example
